

Don't have insurance?

We can help.

Through our Sliding Fee Discount program, we offer access to quality health care for patients who don't have insurance or don't have enough insurance. This program is a sliding fee scale based on your current household income and size. **Call us to see if you qualify: 913-648-2266.**

We also provide free insurance enrollment assistance by calling 913-730-3653.

Already covered?

We welcome patients with Medicaid (KanCare) and private or employee insurance coverage.

What do I need to bring to my appointment?

- Driver's License or Picture ID Card
- Insurance Card (if insured)
- Copay
 - Credit, debit, cash or check
- Medication List
- Records of previous therapy/counseling/behavioral health treatment if available

If interested in our Sliding Fee Discount program, you will be asked to bring other documentation.

**For after hours, call
913-648-2266
or toll-free at 855-886-6938**

Behavioral Health Care

Expert staff. Accessible behavioral health care. Affordable services.

Behavioral health is essential to overall health. Just like physical health problems, individuals of all ages can also suffer from mental health problems—both are real, common, treatable and need to be taken seriously.

In Kansas, one in four people experience mental illness every year. Complications of untreated or under-treated mental illness can impact your physical health and even lead to premature death. That's why turning for life-saving help is important.

At Health Partnership Clinic, a team of Behavioral Health Clinicians (BHCs), which include licensed psychologists and licensed clinical social workers, provide integrated behavioral health services in collaboration with medical and dental services.

What's integrated Behavioral Health?

BHCs collaborate with primary care providers to focus on the whole-person—your mental and physical health—and overall well-being. We provide brief, solution-focused, evidence-based interactions “on-demand” and collaborate with referring medical and dental providers to treat both physical and mental health conditions. BHCs do not provide long-term psychotherapy but will assist you in locating such services if needed.

At our Olathe location, behavioral health services are offered in-person. At our Shawnee Mission, Paola and Ottawa locations, we provide services through interactive video-conferencing.

Additionally, students at Olathe North and Olathe East High Schools and within the Shawnee Mission School District, can receive on-site behavioral health services.

Substance Abuse Services

We provide services for individuals 12 years and older who struggle with the misuse of alcohol, illicit/prescription drugs or other habit-forming behaviors. Services are open to the community. **To learn more, call 913-730-3664.**
