Licensed by Kansas Department of Aging and Disability Services

Substance Abuse Services

Expert staff. Accessible substance abuse treatment. Affordable services.

At Health Partnership Clinic (HPC), we believe that alcoholism, drug addiction and other addictive disorders are treatable illnesses and that those affected, including family members, can recover. We also believe that high quality recovery services should be accessible and affordable to everyone in need of help.

We offer an array of outpatient programs for alcohol, drug, gambling and tobacco abuse. All services are facilitated by our professional and caring licensed staff. Our programs are geared toward individuals 12 years and older, and you **do not** need to be a medical patient of the clinic to participate.

In addition to substance abuse services, HPC also offers medical and behavioral health services. We understand that substance abuse can disrupt various areas of a person's life. Overcoming substance abuse is difficult, but possible. We're here to help!

I need help, who do I call?
