

Protect your family.

The greatest danger in catching COVID is passing it to your family.

Do you have a family member with asthma, diabetes or heart disease? Are they over 50, overweight or have a weakened immune system?

Those and other health issues put them in danger of developing serious symptoms from COVID. But if you get vaccinated against COVID, **you can help protect them.**

Join us at our no cost COVID vaccine clinic.

Friday, May 12 / 5-6 PM

407 S. Clairborne Rd., Suite 104, Olathe

TO CLAIM YOUR SPOT, CALL 913-648-2266
